NEW HAZELTON, B. C. WEDNESDAY, OCTOBER 22, 1930

No. 17

Hospital Opens In Near Future A Great Time

The opening ceremonies for the new hospital at Hazelton are not far off. It is expected within the next two weeks notice will be given of the date for that very important ceremony, and history making event.

There was a meeting of the board of directors on Monday night and the opening ceremonies loomed up large in the discussion. It is proposed to ask Hon. Mr. Howe, provincial secretary, to make the principal speech on behalf of the provincial government which has treated the institution with such generosity and with so much consideration. The date of the opening will be set to coincide with the minister's convenience. There will be present also a church dignitary and others. The exact nature of the opening ceremony will be taken up at a special meeting of the board when word has been received from Hon. Mr. Howe.

Several requests for permission to furnish a ward in the new hospital have been received. There are eight private wards in the white section of the new hospital. Any, or all, of these may be furnished by private parties, organizations or communities, if it is the wish of the public. The board decided Monday night on the equipment necessary for those wards in a general way. It is proposed to furnish each of them with a modern bed, a swivel hospital table and a metal ward robe. These three pieces of furniture will be in colors to harmonize with the decorations of the room and with the floor covering. Their furniture will be in each ward and anyone furnishing one of the wards will be charged with the cost of these three pieces, and the rest of the furnishings will be left to the individual tastes and desires of those contributing. There will be required in addition to the above pieces, a dresser, one or two chairs, a couple of floor mats, etc. The cost per room is estimated between \$200 and \$250 dollars.

The board authorized the secretary to contract for 111A battleship linoleum for the halls and 11A grade for the eight private wards. Also, the secretary will order eight beds, tables and ward robes for the eight private wards. The operating room will be covered with rubber tile. Much of the linoleum, furniture and equipment in the old hospital will be used in the new as it is comparatively new and in splendid condition. Some furniture is to be redecorated to conform with the general color scheme.

So far as the contractor is concerned he will soon be through. The new heating system is now being connected up, the electricians are about to complete their work, such as installing the fixtures, the carpenters will be all done and away in a couple of weeks, and the decorators are hustling along their part as fast as consistent with good work. Good work, in fact, has been the watchword throughout the entire construction.

HALLOWEEN DANCE

A Masquerade Dance will be held under the auspices of the W. A. to the H. H. on the evening of the 31st of October, (Friday). Prizes will be offered for best original costume, best character costume, best comic, best national and best home made. Prize for men and for women in each class. Dance to be in Klunmax Hall, Hazelton. Tickets \$1.00 and include one chance on a live turkey. Come and enjoy yourself. Good music provided.

GEORGE McLAUGHLIN DEAD

Dropped at End of Day's Work on Thursday—Funeral in Smithers Tuesday Afternoon

The news of the sudden death last Thursday afternoon of George (Tiny) McLaughlin near Smithers was received with much regret by a very large number of friends and acquaintances all along the line of the C. N. R. railway between Prince George and Prince Rupert, but particularly between Smithers and Terrace as it was in this district where he chiefly operated. Heart failure was the cause of his death, and few, if any of his old friends were aware that he ever had any trouble with his heart. He was engaged in building a chimney for Sylvester Waldrich on the farm near Smithers and was working in the kitchen and just at the close of the day's work he fell forward on his face and died instantly. Word was sent the authorities at Smithers and Dr. Agnew, Constable Tate and the coroner visited the scene. After investigation it was decided an inquest was not necessary.

The funeral was held on Tuesday afternoon from the United Church in Smithers and interment took place in Smithers cemetery. A large number of friends attended the service.

For ten years or more the deceased was pole and tie inspector for the C. N. R. in this district and as such he was a visitor to all points and he was well known and generally liked. He had a pleasant disposition and was a good mixer. He was a member of the Terrace Assembly Native Sons of Canada and a charter member of the Loyal Orange Lodge, Terrace. The Native Sons at Smithers had charge of the funeral arrangements.

The late Geo. McLaughlin was born at Neepawa, Manitoba, and has some relatives in the east but like most of the men on the frontier he talked but little of his family, and little is yet known. He was unmarried.

Preparing for Winter Work This District

Assistant District Engineer W. H. Cotton has received instructions from his chief, P. Philip, chief engineer for the province, to send in his report on work that can be undertaken during the next few months, as a means of helping the unemployed situation in Skeena riding. Also to state the number of men seeking employment.

At the request of the minister of Public Works, Hon. N. S. Loughheed, Mr. Cotton sent in a report about the last week in July on the unemployed, with the result that an extra grant of \$4,000 was made for work on the Croft and Driftwood roads, thus helping the situation considerably.

As very little of the proposed highway to Prince Rupert was surveyed until the past summer, it will be necessary to get several survey crews in the field at once to locate and map out work that can be undertaken this winter.

To date no word has been received as to the amount of money that will be available for Skeena riding, but it is expected that such word will be received in proper quarters shortly. Such a vast undertaking as continuing the work on the highway during the winter months in this central part of B. C. must necessarily take considerable organization and the public works department is busy at present with preparations, so as to be ready to start work as soon as funds are available.

Bridge Ready Now For Steel Cables Stretch

The new high level bridge over the Bulkley river connecting New Hazelton with the northern side of the river, and the first link in the highway to the Yukon and Alaska, is now all ready for the steel workers, and they will be here very soon. Tenders are being called for the erection of the steel work and the cables said tenders to be in by November 3rd. The steel is expected here on every train it will be immediately hauled to the bridge site upon arrival.

Thus far the bridge crew under Paul McMaster as foreman and Owen Smith as engineer in charge, have removed 3,000 yards of earth and rock for the excavations, and have poured 1100 yards of cement for the foundation and piers. That is a lot of work and very exacting work as steel cannot be sawn or bent to fit something out of place. The steel will come in great pieces and it will fit onto the concrete and the cables will fit onto the anchors, nothing can be changed now.

The approaches on each side of the bridge have been built requiring 100,000 feet of timber for that work alone. These approaches now give an idea of what the bridge will be like when the steel has been erected. The finished bridge will be a clear 16 ft. 6 in. between the guard rails, giving lots of room for two way traffic. The structure is several feet higher than the old bridge along side and which did noble duty for many years. At the centre of the new bridge it will be at least ten feet higher than the old one. This does away with the sharp dip at each end of the old structure.

The cables arrived last week, 18 in all. There will nine cables on each side of the bridge and the finished cable will have a diameter of 8 inches. The cables are now being stretched preparatory to being strung across the river and placed upon the towers. All the cables will be ready by the time the steel erectors arrive. The steel towers will be the first steel erected. They will be 71 ft. the concrete piers.

The road on the south side of the bridge has been widened and the grade lowered and several trucks are engaged in hauling gravel. Gravel is being put on for a considerable distance through and passed Hagwilgate.

Many men have been engaged on the construction of the bridge for a long period. Practically all these men are from the immediate district. There has not been one labor dispute or any trouble of any kind which speaks well for those in charge, as well as for the men themselves. Another pleasant feature is that very few accidents occurred, and those were of a very minor nature. The only regrettable feature is that the the job being so nearly finished many men are and will be out of employment as there is not much looming up for the winter yet.

The road gang on the Yukon Telegraph trail returned to town Sunday last. On Tuesday the survey party operating for the water rights department also returned for the winter.

Fancy Crepe Paper for Halloween Costumes; masques for everyone at the Omineca Hotel, Hazelton. You do not have to send out for your costumes.

The Ladies Aid of Hazelton met on Tuesday afternoon last.

Rev. T. H. Wright is spending a day of two down the line.

GEOGRAPHICAL GAZETTEER

Most Valuable Volume of British Columbia yet Published—Great Book of Reference

The Geographical Gazetteer of British Columbia, a volume of 291 pages of close-packed and concise data regarding the Geography, has just been issued by F. P. Burden, minister of lands. This publication will prove of inestimable value as a reference book. It was compiled by the chief geographer, Major G. G. Aitken, and staff, and in addition to a preface giving historical, topographical and other information, areas of islands, lakes, drainage basins, cities, municipalities, villages, lists of main rivers and tributaries, data regarding parks, historical sites, etc., the volume contains approximately 23,000 place names of geographic features. The location is adequately shown by district and latitude and longitude.

The data from which this volume has been carefully compiled is based upon the most authoritative sources available. In the place names there is the perpetuation of the memory of the original inhabitants—the Indians. The intrepid explorers and fur traders have given place name signs of their endeavors. Of later years there are the names of patient and steadfast pioneers attached to geographical features of the districts with which they were associated. In more recent years outstanding work and local citizenship have contributed to the naming of rivers, mountains, creeks, seas and other features.

The work is one of which Hon. Mr. Burden and his department may well be proud. Owing to its special nature and the cost involved in production it has been found necessary to place a charge of \$2.50 per volume upon it.

Mrs. Olson of Dorreen who has been a patient in the hospital, was able to return to her home on Tuesday.

Mine Inspector Shenton of Prince Rupert visited the district this week.

On another page in this issue will be found an advertisement from the Canadian National Railway Company calling for tenders for railway ties. It is likely that many tenders will go in from the district east of here, as well as some from this locality and also west of here.

COD LIVER OIL CROP VALUABLE

Over 91,000 gallons of medicinal cod liver oil were produced in fisheries by-product operations in Canada last year. Practically all of this oil was exported to the United States. The province of Quebec lead in the quantity of production with 42,184 gallons. Nova Scotia accounted for 30,020 gallons and New Brunswick for 18,218 gallons. All told the market value was slightly over \$83,000. In addition to the medicinal oil there was also produced a total of 170,000 gallons of cod liver oil for other uses.

A model marriage is one in which the wife is the treasure and the husband is a treasury.

My husband talks in his sleep. Doesn't you?
No, and its so exasperating. He only smiles.

When water becomes ice, said the professor, what is the greatest change that takes place?
The price sir.

In the time of trial, inquired the speaker, what brings us the greatest comfort?

An acquittal, interrupted a man at the back of the hall.

Murder Trial at Smithers Open Many Witness

Sigurd Jussila, the Finlander who was arrested as the suspected murderer of Chas. Yoch of Houston, will appear for preliminary trial tomorrow at Smithers. It is probable that he will be sent up for trial and removed to the Okala prison farm where he will be under observation as to his mental condition. The crown has 21 witnesses ready to give testimony. Inspector John Macdonald of Prince Rupert who succeeded Inspector Spiller, will be present at the hearing, as will also Sergt. Service who is a witness.

Pictures of the Yoch house have been taken by C. L. Evitt, and a plan of the house is being prepared by Allen Rutherford. It will show also the location of the caches where the stolen goods were found. It is expected by police that Houston people will be able to identify the prisoner as the man who was seen there on September 7th, and the police also hope to prove that the discarded pants and cap that were found were the property of the accused. They were found in the bush between the Bulkley and the Morice rivers. The shoes and old socks, found in the Yoch house, may also have belonged to the prisoner.

Before the arrest of the accused Sigurd Jussila, alias John Enielson and Fred Anderson and John Johnson, the police took the above mentioned old clothes far and near in an effort to connect them up with some person.

The accused is the same person who was on the 27 of January, 1930, fell and hurt his head and arm while trying to board a moving freight train on the C. N. R. at Skeena City. At that time members of a B. & B. gang took up a collection and bought him a ticket to Smithers, and also rendered aid. Apparently the man was not accustomed to cushions and comfort and he disappeared from the coach only to be found seated on the tender of the engine. He was taken back to the coach but two or three times left modern comforts to ride on the tender. At Evelyn the crew lost him entirely and when the train arrived at Smithers the matter was reported to the police. The police looked east and west but found no trace of him until now. It was Oscar Stenman who tells the police of how this man arrived at his farm the night in question with his face scarred, etc.

The arrest recalls the sudden disappearance of Tom Stephenson, an old timer who was known throughout the Valley and especially in the Hazelton district where he prospected for many years. In July 1920 Stephenson was seen with a young man going towards Quick, and neither of them have been seen since. It was known that a young fellow, supposedly a tramp, had stopped with Tommy for two or three days at his cabin. Stephenson's saddle pony was found tied to the C. N. R. fence and had evidently been there for several days as it was both starved and in bad shape for the want of water. That was so contrary to anything Stephenson would do that a report was sent to the police, but the old prospector seems to have dropped off the earth entirely.

It is now wondered if the accused man in the Smithers jail was the fellow seen with Stephenson, or if he is in any way connected with Tommy's disappearance. At any rate the provincial are investigating.

R. F. McNaughton, Prince Rupert, district passenger agent, C. N. R., was in Hazelton a couple of days this week.

BUSINESS WILL IMPROVE

It is believed by the trend of business, that the low point of the economic depression in Canada has been passed. Sales of winter lines have improved, although the manufacturing business is still at a low ebb, due to wholesalers disposing of stocks of imported goods on hand or on order before the tariff changes. Eastern shoe and leather manufacturers are experiencing quite a demand and are consequently producing on a more active basis. The textile industry is unsettled but optimistic foreseeing increased production with less competition from Japanese and Czech lines. One of the largest of the Quebec mills is reported to be bringing additional looms into operation to increase its output from 65 to 80 per cent capacity. Ontario inventories in textile lines are low and some dealers predict an actual shortage, although fall orders are smaller than usual.

The August production of Canadian plants, 9,792 units, is the lowest of the year to date, being 4 per cent under July and 23 per cent under August of 1929, production. Eastern demand for electrical apparatus has improved and hardware dealers in that section are satisfied with the general outlook, although sales are below last year's level. A slight pick-up is noticeable in winter specialties, including seasonal sporting goods, which are improving fairly well. Substantial increases are noted in Ontario prices for window glass.

Benson Bros.
HAZELTON, B. C.

Waterproof clothing prices in Vancouver have been increased but the rubber goods market there continues quiet. The British Columbia pack of canned salmon to Sept. 20 totals over two million cases, a record for the province. Foodstuffs are reported to be moving in nearly normal volume in Ontario, but stocks on hand are fairly low. August production of pig iron and steel in Canadian plants was substantially under July output and was only about half of the total for that month of last year. A slight gain is, however, noted in the out of ferro alloys.

OH, YOU TELEPHONE SERVICE

For a long time there has been a lot of difficulty in getting any use of the Dominion telephones. Either the bell does not ring, or there is a loud hum on the wire or something makes a whole of a noise some place in the district. Anyway everyone we have spoken to about the telephone trouble reports the same difficulties. But it is a government telephone, and a government gets by without giving service that it would insist on from a private company. The system is poor at all times, always was, and always will be so long as it is operated on telegraph wires and with twenty or more on the same party line. About the only thing the system seems to render is a bill each and every month for non-service, and that bill is for the same amount as a private company would charge for service.

CANADIAN LOBSTER CATCH BIG

More than 35,505,000 pounds of lobster have been caught in the Atlantic coastal waters of Canada in the first eight months of the year. This is an increase of nearly three million pounds over the catch in the corresponding period last year.

H. F. SHAW

Provincial Collector

My husband is merely the manufacturer of waste paper baskets signed a woman with aspirations. It seems such a prosy occupation. On the contrary, there is really a lot of poetry in waste baskets.

Carolyn Wells, denn of American detective stories, tells us why she never had any higher education. "I went to high school in Bathway, N. J., and wanted to go to Vassar, until I found out they had to make their own beds there. Then that was all off. I next thought of Wesley, but I discovered they had to make their own beds here, too. So I decided not to go to college at all."

ADDRESS TO THE INSTITUTE

Mrs. Humphrey of North Vancouver who has been visiting a number of Women's Institutes throughout Northern and Central B. C., paid Terrace a visit last Monday evening when the members and their friends had the privilege of hearing a most instructive talk on the crippled children work school-gardens and the work of the Institute generally. Following this two reels of comedy were shown by Mr. Bishop and then the Institute ladies served refreshments. The hooked rug which was raffled by the Institute was presented to Mrs. Clark who held the lucky ticket.

The hospital dance held on Friday evening last was a most enjoyable affair. There was a large crowd present and the music was good. The committee in charge deserves much credit for the social and financial success achieved.

BISHOP OF CALEDONIA HERE

His Grace Archbishop Rix arrived in Terrace from Hazelton on Sunday and stopped over to visit the church here. He had just returned from the conference of bishops in London, Eng., and while here was the guest of Mrs. Marsh. Sunday evening he addressed a large congregation in St. Matthews church. After referring to the continued growth of this parish he spoke of the great loss the church sustained in the death of Canon Marsh, one of the greatest and noblest pioneer missionaries in Canada. He would long be remembered for his good deeds. His Grace then gave an account of the conference at which 807 bishops were present from all parts of the globe. Rev. Mr. McCarthy, rector, conducted the prayer service and H. Hallwell read the lessons. The junior choir rendered special music.

Bill Treston was in from Kalum on Saturday last.

Terrace Notes

Mrs. P. Murphy of Remo was a visitor in Terrace.

Mr. and Mrs. Michael were dinner hosts on Friday evening when they entertained the members of the school staff.

Mr. and Mrs. O. T. Sundal entertained friends at bridge on Tuesday evening. There were five tables. The prizes for high score were won by Mrs. E. T. Kenney and by Geo. Little, and consolation prizes were taken by Mrs. Abernethy and Mr. Beveridge.

Park Hill road has been widened and levelled and is now in excellent condition, a vast improvement. The work was done by the Provincial Public Works Department. On Kalum Ave north the road gang is also clearing out brush and straightening out the road, especially the curve at the park.

Arthur Carr has painted his house and it looks better.

Mrs. Butt visited Prince Rupert.

Lyell Moore has returned from his visit with his brothers Verge and Albert in Prince Rupert, and will spend some time here with his parents before returning east.

E. M. Lawrence left Thursday last to spend the winter in the south.

News of the death of A. E. Merrithew of Vancouver was received here recently by friends. Mrs. Merrithew recently visited Rebekah Lodge in her official capacity as president of the Grand Lodge of B. C.

R. I. McIntosh is preparing to close his summer home and move to Prince Rupert for the winter. Mrs. McIntosh is already at the coast.

Mrs. Geo. Little entertained to a bridge luncheon on Thursday afternoon last. Mrs. Ardaugh won first prize and Mrs. Sundal the consolation.

Fred Nash, land surveyor, and his assistant Howard Wilson, returned to Terrace after several weeks spent at Telegraph Creek.

Joe Felber has come in from the hills for the winter. He says the snow is getting too deep.

Dr. H. C. Wrinch, M. L. A., paid a visit to Terrace last Tuesday and met the Liberal Association.

The first snow of the season arrived last Friday morning and also a little colder weather and a few unprotected water pipes were frozen. This was only a warning of what is to be expected later.

V. Lewis of Prince Rupert was in Terrace the first of the week.

W. F. Hogg of Pacific was a business visitor here Thursday.

Capt. Willman of Usk was in own last week.

W. K. Clark and Jas. A. Macdonald were down from Smithers for a few days.

The accounts in connection with the hospital dance have not been made up but it is expected that forty of fifty dollars will be credited to the hospital funds. In spite of the blizzard that raged that night the results are quite satisfactory.

A young couple, entertaining a prim and slightly absentminded maiden aunt from Nebraska, were astonished and aghast the other night when some one mentioning "speak-easies" the dear old lady brightened and was suddenly all interest. "Oh! Speak-easie, yes, I've always wanted to see one. Do you suppose we could go to one while I'm here? I understand they are so much better than the old silent ones."

AT SMITHERS

Since the weather has again turned mild the farmers in the Valley plan on resuming ploughing for another month. The snow helped the condition of the ground.

A. J. McIntyre, dispatcher for the C. N. R. at Smithers, and who has been around the district since the days of construction, has been transferred to Edmonton and he is moving to his new home immediately. He and his family have many friends in Smithers and district will regret their departure.

Smithers Parent Teachers Association held a very successful and well attended meeting on Thursday last, the 16th October. Dr. V. Agnew gave a most interesting and instructive address on the menace of diseased tonsils. The address was greatly appreciated. Mrs. A. Grey rendered two very pleasant vocal solos and Misses Wilson and Downey of the teaching staff read interesting papers. The Association is fast proving of benefit to both teachers and parents and its future outlook is indeed bright.

The Smithers Badminton Club opened the season with a successful and enjoyable dance on October 17th. Grey's orchestra rendered excellent music. The Club is hopeful of playing a tournament with Hazelton this coming winter.

It is understood the department of public works is considering the feasibility of burning the slash along the roadside during the next few months. This is a much needed piece of work and has the strong endorsement of the Forestry Department.

The Smithers Chamber of Commerce held its regular quarterly meeting at Telkwa on October 14th. These quarterly meetings are preceded by a dinner, and Telkwa was chosen as the meeting place for this quarter, with the object in view of encouraging a greater co-operation between Smithers and Telkwa, and it resulted in several Telkwa citizens becoming members.

The unemployment situation was discussed at great length and many suggestions were offered which resulted in a resolution being passed instructing Secretary H. M. Matthews to post a notice to the effect that he would receive names and forward them to Assistant District Engineer W. H. Cotton who will have charge of the unemployed relief work.

Tenders for Track Ties

CANADIAN NATIONAL RAILWAYS

Sealed Tenders addressed to the undersigned and endorsed "Tenders for Track Ties" will be received at the office of General Tie and Timber Agent, Canadian National Express Building, Montreal, until 12 o'clock, noon, October 31st, 1930, for railway ties, to be manufactured from hardwood and soft wood timber cut between September 1st, 1930 and May 1st, 1931, and delivered between January 1st, 1931, and September 1st, 1931, F.O.B. cars, Canadian National Railways, in accordance with specifications S3 W-1, 2, revised July 15th, 1926.

Tender forms may be obtained at the offices of the tie agents—agents at Moncton, N. B., Toronto Ont. and Winnipeg, office of the Purchasing Agent at Vancouver and from the General Tie and Timber Agent, Montreal. Tenders will not be considered unless made out on forms supplied by the Railway Company.

As our necessary reserve of ties has been built up and as a very substantial surplus is therefore on hand, the number of ties to be purchased will be very much less than during the past year.

The lowest or any tender not necessarily accepted.

A. G. McLEAN,
General Tie and Timber Agent,
Montreal, Que.

MR AND MRS KEITH LEAVING

There have been many social functions the past week in honor of Mr. and Mrs. Geo. Keith and Mrs. Kerr who are leaving Terrace for the south about the end of the present month. They will spend the winter in Vancouver and later decide on the permanent location. Their removal from Terrace is much regretted in the musical and social circles where they were always willing and pleased to do their part. Hospitality in their home was one of their great pleasures and many will recall pleasant hours spent there, especially when they have newly arrived in the district. It is 12 years since Mr. and Mrs. Keith came to Terrace and during that time they have made many friends who are very sorry to see them move away.

PROPOSED WINTER WORK

The Terrace Commissioners met on the question of unemployment last week and went into the matter closely. The clerk reported about twenty persons unemployed as at October 1st and steps were taken to approach the provincial government for assistance towards providing five hundred days work during the winter. It was felt this would be a very material help towards staving off destitution in the village. The proposals put forward include the laying of 3000 feet of water main, work on some 5000 feet of roads and streets. The total expenditure for this work is expected to reach about \$2,500.

The late George McLaughlin, who died in Smithers last Thursday from a heart attack was a member of the Terrace Native Sons of Canada and also a charter member of the Royal Orange Lodge. He had many friends here and in this district who will miss his genial personality.

Short Stories Close to Home

E. W. Beatty sees a big market in the United States for Canadian wheat.

A couple of big game hunters from the United States who spent a month or more in the Groundhog country, returned last week and shipped out their trophies. They got all the stuff they wanted, including caribou, goat, moose and what not.

E. H. Shockley of Vancouver paid a visit to the new hospital last week and expressed himself as well pleased with the progress that has been already made. He says he will be finished very soon now and will turn it over to the hospital board.

School Inspector Fraser paid a visit last week to local schools.

For Sale—Baby carriage with runners \$20.00; Baby's Play Pen, \$6.00; One tress, \$5.00; set of Irons, \$3.25; Two Painted Drop Leaf Table, \$5.00; Mat-Pair Blue Portiers, \$2.50 pair, with rod.—Apply Mrs. Cooper H. Wrinch Hazelton, B. C.

Ralph Spooner has been under the doctor's care for more than a week first with a heart attack and then an attack of pneumonia. His condition was none too good last reports.

The Hazelton Social Club had a very enjoyable bridge party in the school house on Friday night last. It was far from being good weather, the first blizzard of the season being on in full force, many were kept away that had planned on going. The first prizes were won by Mrs. Peel and J. Morris.

Lost—Black Percheron mare, star on face, bobbed tail, weight about 1600 lbs.—It strayed away—Anyone seeing or keeping same notify John Maychlinko, Hazelton. Reward of \$10.00 will be given.

John Love of Kispiox is a patient in the hospital having suffered a brokerm while working in the woods.

The last three days of last week were anything but pleasant for this time of the year. The wind got into the east and blew harder than a summer breeze is expected to blow. It was accompanied by snow and a decided drop in temperature. In fact it was quite like an attempt of Jack Frost to turn over in his bunk in a warning of better efforts to come a little later on.

The rummage sale put on by the Hazelton Social Club last week was quite as successful as anticipated and some \$35 were realized to add to the hall funds the Club is sponsoring.

There is much speculation even in local circles as to the outcome of the Peace River railway, and by no means are local people, especially those who are concerned with the development of natural resources, willing to concede that the railway will not come down the Skeena river and connect with the C. N. R. in this immediate vicinity. Engineers, and lots of them have been encountered in parts of the country that would indicate that at least the Skeena route is being seriously considered.

Ward No. 9 at the hospital at present is occupied to capacity by old timers who are in for repairs, and by some younger men who have been in the district for years, but who needed attention.

Mr. and Mrs. Wm. Gow returned to South Hazelton Tuesday morning after a three weeks' holiday spent in the Peace River country where Mr. Gow found the geese wild and flying high. Of course he got some, but not what he anticipated or would have liked.
